

Ecology and water protection

(Nataša Smolar-Žvanut, Ph.D., Assist. Prof.)

Subjects code: EWP

Year of Study: 1. or 2.

Lectures: 20

Exercises: 30

ECTS: 6

Contents subjects

- Structure and functions of water eco-systems
- Abiotic factors in water eco-systems
- Biotic factors in water eco-systems
- Diversity of water habitats
- Adjustment of water organisms to water field
- Pressures and burdening of water
- Effects of water pollution on water eco-systems
- Techniques of revitalisation of water eco-systems
- Protection of water eco-systems
- Water management
- Research methods in limnology
