PRAXIS, THE GATEWAY TO YOUNG TALENTS

EUROPEAN NETWORK FOR PROJECT/INTERNSHIP EXCELLENCE

Dear [Company X CEO]

[Your HEI] would like to introduce you to the **Praxis Network** of which we are a member. This network consists of 71 partners in 30 countries on 3 continents.

The **Praxis Network** is the first European network which provides higher education students the opportunity to make contact with companies offering project/internships abroad and to undertake these as part of their practical training.

The **Praxis Network** has created an open and free portal for projects/internships provided by its members and associated partners. This portal is called the **Virtual Market** and it was launched on the 10th of October 2013.

Praxis is a network worth joining because it can help you to:

- enhance [Company X]'s visibility internationally.
- upload proposals and internships offered by [Company X].
- select students with the best technical and/or linguistic skills.
- establish contacts in new countries.
- strengthen your links and cooperation with higher education institutions across 30 countries.
- enrich your human resources.
- gain access to the research and innovation in the project/internship teaching paradigm.

If the **Praxis Network** has attracted your interest, the accompanying folder will provide you with more information.

Hopefully the **Praxis Network** can contribute to your success.

Sincerely

[Your Name]
