

Dear exchange student!

We kindly please you to fill in the questionnaire and send it back to us by email as soon as possible.

We post your answers in our webside to promote student exchange mobility, if you agree. If you don't agree please let us know!

**Thank you very much in advance!**

**1. Where do you come from and what do you study back home?**

I'm a Spanish student and I'm coursing a double major in Energy Engineering and Environmental Engineering.

**2. Why did you choose Slovenia as your exchange country and why did you choose Environmental Protection College (EPC) as your exchange higher education institution?**

My friend Ana recommend me this destination.

**3. What do you think of Velenje/Slovenija?**

Both places are very nice, compared to Spain everything is cheaper, the people are very nice too. I'd have liked to see more Erasmus students in Velenje and I hope they choose it in the next years.

**4. What do you think of your host institution – Environmental Protection College (EPC)?**

It's smaller college than mine but I liked it that way. The classes are more interactive and the professors closer to the students.

**5. Are you satisfied with the way your study at the EPC is going?**

Yes, but we would like more classes in English.

**6. What are your main professional interests in and how do you see your future career?**

I would like to work in an environmentally related company, for water treatment, for impact assessment or air quality measurements...etc. I think working for the EU in one of these sectors would be amazing as well.
