

Dear exchange student!

We kindly please you to fill in the questionnaire and send it back to us by email as soon as possible.

We post your answers in our webside to promote student exchange mobility, if you agree. If you don't agree please let us know!

**Thank you very much in advance!**

**1. Where do you come from and what do you study back home?**

Hello! My name is Ana and I am from Madrid, Spain. I study Energy Engineering and Environmental Engineering.

**2. Why did you choose Slovenia as your exchange country and why did you choose Environmental Protection College (EPC) as your exchange higher education institution?**

I chose Slovenia because a previous Erasmus Student told me that it was nice to have the Erasmus in Slovenia and it is cheaper than another countries. I chose VSVO because it was the only option in Slovenia for my studies.

**3. What do you think of Velenje/Slovenija?**

Velenje is a small and relaxing city in Slovenia. I recommend the most the three lakes. And Slovenia is a beautiful country and if you love to travel like me is very easy to do here.

**4. What do you think of your host institution – Environmental Protection College (EPC)?**

The teachers and other people in VSVO are so nice. They always have time for us and helped us!

**5. Are you satisfied with the way your study at the EPC is going?**

I only miss English lectures because I want to improve my English level but I am happy any way.

**6. What are your main professional interests in and how do you see your future career?**

I do not know because life can surprise you. But I would like to dedicate my life to the environment, maybe in a laboratory. Who knows!?
